INDEX, 1951

Accessions to the Library, Recent, 192, 334, 531, 590, 638, 689, 743
ACTH and cortisone as therapeutic agents in arthritis and some locomotor disorders, Otto Steinbrocker, Sidney Berkowitz, Solomon Carp, Mortimer Ehrlich, Mortimer Elkind, Murray Silver and Norman Spitzer, 560
Clinical effects of cortisone and, on rheumatic diseases, Joseph Jay Bunim, 75
Influence of, on the sensitizing and immunizing antibodies of inhalant allergy, Mary Hewitt Loveless, 495
Address of the retiring President, Benjamin P. Watson, 136
of welcome, Twenty-fourth Graduate Fortnight, William Barclay Parsons, 643
Adrenal hyperfunction and function, S. Leonard Simpson, 723
Advances in the treatment of chronic alcoholism, Oskar Diethelm, 232
Alcoholism, chronic, Advances in the treatment of, Oskar Diethelm, 232
Allergy, inhalant, Influence of ACTH on the sensitizing and immunizing antibodies of, Mary Hewitt Loveless, 495
Ampulla of Vater, carcinoma of, Carcinoma of the pancreas and, a re-evaluation, William Barclay Parsons, 339
Annual Meeting, January 4, 1951
Address of the retiring President, Benjamin P. Watson, 136
Inaugural address, William Barclay Parsons, 129
Antibiotic therapy in viral and rickettsial diseases, Present status of, Joseph E. Smadel, 221
Antibiotics in bacterial infections, Present status of, Maxwell Finland, 199
in the treatment of protozoan diseases, Present status of, Howard Benedict Shookhoff, 439
Antihistamine drugs, Uses and abuses of, William Bowen Sherman, 309
Appraisal of psychoanalysis for the practitioner, Phyllis Greenacre, 295
Art as a top-ranking medical hobby, Robert Latou Dickinson, 378
Arthritis and some locomotor disorders, ACTH and cortisone as therapeutic agents in, Otto Steinbrocker et al, 560
Pyogenic, Arthur Steindler, 101
Rheumatoid, natural history of the disease and its management, Charles Regan, 63
Atherosclerosis, Experimental and human, possible relationship and present status, Maurice Bruger and Elliot Oppenheim, 539
Bacterial infections, Present status of antibiotics in, Maxwell Finland, 199
Berkowitz, Sidney. See Steinbrocker, Otto, joint author.
Biggs (Hermann M.) Lecture, Biological and social aspects of tuberculosis, René J. Dubos, 351
Bing, Richard J., Coronary circulation in health and disease as studied by coronary sinus catheterization, 407
Biological and social aspects of tuberculosis, René J. Dubos, 351
Blakemore, Arthur H., Portacaval shunt for portal hypertension with special reference to cirrhosis of the liver, 477
Blood pressure, New and old definitions of normal, clinical significance of the newly established limits, Arthur M. Master, Isac Goldstein and Max Benjamin Walters, 452
Blumgart, Herrman L., Coronary disease, clinical-pathologic correlations and physiology, 693
Body water in man and its subdivisions, J. Murray Steele, 679
Bone, Metabolism of calcium and phosphorus in, John Eager Howard, 24

Bones and joints, Tuberculosis of, David M. Bosworth, 42
Tumors of, Henry Lewis Jaffe and Golden Selin, 165
Bosworth, David M., Tuberculosis of bones and joints, 42
Browne, (Sir) Thomas, Humanity of, Jeremiah S. Finch, 521
Bruger, Maurice and Elliot Oppenheim, Experimental and human atherosclerosis, possible relationship and present status, 539
Bulkley (L. Duncan) Lecture, Carcinoma of the pancreas and carcinoma of the ampulla of Vater, a re-evaluation, William Barclay Parsons, 339
Bunim, Joseph Jay, Clinical effects of cortisone and ACTH on rheumatic diseases, 75
Burning accidents in England and America, Prevention of, Leonard Colebrook, 425
Calcium and phosphorus in bone, Metabolism of, 24
Cancer problem, Ewing, the experimental method and the, Cornelius P. Rhoads, 606
Carcinoma of the pancreas and carcinoma of the ampulla of Vater, a re-evaluation, William Barclay Parsons, 339
Cardiac anomalies, congenital, Newer methods in the diagnosis of, André Cournand, 277
Carp, Solomon. See Steinbrocker, Otto, joint author.
Chromatographic analysis of ragweed pollen extract, Ely Perlman, 586
Circulatory failure, Mechanism and management of, William Dock, 645
Clinical effects of cortisone and ACTH on rheumatic diseases, Joseph Jay Bunim, 75
recognition of coronary heart disease, Robert L. Levy, 711
Clinical Research Meeting (abstracts)
Abnormal findings in the capillary blood vessels of rats under subnutritional conditions and edema, Theodore A. Balourdas, 386
Antithrombin titer in acute pancreatitis, Irving Innerfield, Alfred Angrist and James W. Benjamin, 399
Blood levels of I-131 after tracer doses in the diagnosis of hyperthyroidism, Mack H. Fieber and Solomon Silver, 390
Bromsulfalein sodium retention evaluation of hepatic function in diabetes mellitus, Julius Pomeranze, 396
Clinical ballistocardiography, experience in four hundred consecutive cases, Robert C. Taylor, Marvin Moser, Kenneth Chesky, Leon Pordy and Arthur M. Master, 385
Complement titres in different phases of glomerulonephritis, Kurt Lange, Frank Craig, Jacob Oberman and Fred LoCasto, 392
Correlated study of lysozyme content and histology of normal and diseased colons, Henry D. Janowitz, Franklin Hollander and John H. Garlock, 402
Determination of thyroidal plasma iodide clearance as a routine diagnostic test of thyroid function. Solomon A. Berson, Rosalyn S. Yalow, Joseph Sorrentino and Bernard Roswit, 395
Effect of ACTH on sensitizing and immunizing antibodies of inhalant allergy, Mary Hewitt Loveless, 392
Excessive doses of cortisone in pregnant mice, effect on development and survival of the fetus and newborn and on the maternal breast tissue, Susi Glaubach, William Antopol and Samuel Graff, 398
Influence of Priscoline on digital blood flow in normal subjects and patients with peripheral arterial insufficiency, Theodore B. Van Itallie and Charles W. Clarke, Jr., 394
Investigation of the relationship of chronic disseminated histoplasmosis and sarcoidosis, Harold L. Israel, Edward DeLamater, Maurice Sones, William D. Willis and Alvin Mirmelstein, 403
Irradiation-produced rise in blood radioiodine concentration during I-131 therapy, S. M. Seidlin, A. Aaron Yalow and Edward Siegel, 393
Mechanics of an arterio-venous fistula for peripheral vascular disease, Lester Blum, 388
Observations on the course of Hodgkin's disease treated with cortisone, Abraham S. Jacobson, Bernard

Straus, Solomon A. Berson, Theodore C. Bernstein, Robert S. Fadem and Rosalyn S. Yalow, 401
Observations on the mechanism of the synergistic action of oral vitamin B-12 and folic acid in pernicious anemia, Edward H. Reisner, Jr. and Leo Weiner, 391
Pulmonary changes in uremia, Hyman E. Bass, David Greenberg, Emanuel Singer and Milton A. Miller, 397
Radioactive iron studies in anemia, Ira A. Rashkoff, Louis R. Wasserman, Dorothy Leavitt and Josephine Mayer, 387
Recovery of neoplastic cells in bone marrow aspiration, advantages of aspiration of bone marrow from the iliac crest, Michael A. Rubenstein and Amiel Smelin, 404
Recurrent thrombophlebitis, a study of life situations, emotions and the clotting time and relative viscosity of the blood, Robert A. Schneider, 389
Special vectorcardiography as a means of differentiating the electrocardiographic patterns of bundle branch block from those of ventricular hypertrophy, L. Scherlis, R. P. Lasser and A. Grishman, 386
"Two-step" exercise electrocardiogram, a preliminary follow-up study of 200 cases, Kenneth Chesky, Leon Purdy and Arthur M. Master, 383
Unipolar bronchial electrocardiography in man, Isac Goldstein, Leon Purdy, Kenneth Chesky, Sydney Feuerstein and Harold S. Arai, 384
Variations in the hyperdynamic cardiovascular response to stress among hypertensive subjects, John T. Flynn and Stewart Wolf, 382
Colebrook, Leonard, Prevention of burning accidents in England and America, 425
Committee on Public Health Relations of The New York Academy of Medicine, Report on convalescent care, 325
on Public Health Relations, Subcommittee on Nursing, Recommendations for action to relieve the nursing shortage, 577
Convalescent care, Report on, by the Committee on Public Health Relations of The New York Academy of Medicine, 325
Convulsive disorders in children, Treatment and prognosis of, Herman Yannet, 466
Coronary circulation in health and disease as studied by coronary sinus catheterization, Richard J. Bing, 407
disease, clinical-pathologic correlations and physiology, Herman L. Blumgart, 693
heart disease, Clinical recognition of Robert L. Levy, 711
Cortisone, ACTH and, as therapeutic agents in arthritis and some locomotor disorders, Otto Steinbrocker et al, 560
and ACTH, Clinical effects of, on rheumatic diseases, Joseph J. Bunim, 75
Cournand, André, Newer methods in the diagnosis of congenital cardiac anomalies, 277
Craig, Howard Reid, Structure and functions of The New York Academy of Medicine, 597
Diagnosis of testicular deficiencies, Robert Sherman Hotchkiss, 510
Dickinson, Robert Latou, Art as a top-ranking medical hobby, 378
Diethelm, Oskar, Advances in the treatment of chronic alcoholism, 232
Diseases and disorders of muscle function, Donald McEachern, 3
Dock, William, Mechanism and management of circulatory failure, 645
Dubos, René J., Biological and social aspects of tuberculosis, 351
Ebin, Judah, Surgical treatment of Parkinsonism, indications and results, 653
Ehrlich, Mortimer. See Steinbrocker, Otto, joint author.
Elkind, Mortimer. See Steinbrocker, Otto, joint author.
Elsberg (Charles A.) Lecture, Some observations based on a review of 900 laminectomies, Ernest Sachs, 370
Ewing, the experimental method and the cancer problem, Cornelius P. Rhoads, 606
Ewing (James) Memorial Lectures
Ewing, the experimental method and the cancer problem, Cornelius P. Rhoads, 606
Primary cancer of the lung with special consideration of its etiology, Evarts

Ambrose Graham, 261
Experimental and human atherosclerosis, possible relationship and present status, Maurice Bruger and Elliot Oppenheim, 539
Finch, Jeremiah S., Humanity of Sir Thomas Browne, 521
Finland, Maxwell, Present status of antibiotics in bacterial infections, 199
Freud, man and scientist, Rudolph M. Loewenstein, 623
Freud (Sigmund) Anniversary Lecture, Freud, man and scientist, Rudolph M. Loewenstein, 623
Freyberg, Richard Harold, Non-articular rheumatism, 245
Friday Afternoon Lectures
Advances in the treatment of chronic alcoholism, Oskar Diethelm, 232
Appraisal of psychoanalysis for the practitioner, Phyllis Greenacre, 295
Diagnosis of testicular deficiencies, Robert Sherman Hotchkiss, 510
Experimental and human atherosclerosis, possible relationship and present status, Maurice Bruger and Elliot Oppenheim, 539
Modern treatment of syphilis, Evan Willing Thomas, 175
Newer methods in the diagnosis of congenital cardiac anomalies, André Cournand, 277
Portacaval shunt for portal hypertension with special reference to cirrhosis of the liver, Arthur H. Blakemore, 477
Surgical treatment of Parkinsonism, indications and results, Judah Ebin, 653
Uses and abuses of antihistamine drugs, William Bowen Sherman, 309
Ginsberg, Harold S., Studies on the mechanism of the toxic action of Newcastle disease virus, 581
Goldstein, Isac. See Master, Arthur M., joint author.
Gout, Some recent advances in the study of uric acid metabolism and, Alexander B. Gutman, 144
Graduate Fortnight, 1950
Clinical effects of cortisone and ACTH on rheumatic diseases, Joseph Jay Bunim, 75
Diseases and disorders of muscle function, Donald McEachern, 3
Metabolism of calcium and phosphorus in bone, John Eager Howard, 24
Non-articular rheumatism, Richard Harold Freyberg, 245
Pyogenic arthritis, Arthur Steindler, 101
Rheumatoid arthritis, natural history of the disease and its management, Charles Regan, 63
Some recent advances in the study of uric acid metabolism and gout, Alexander B. Gutman, 144
Tuberculosis of bones and joints, David M. Bosworth, 42
Tumors of bones and joints, Henry Lewis Jaffe and Golden Selin, 165
Graduate Fortnight, 1951
Address of welcome, William Barclay Parsons, 643
Clinical recognition of coronary heart disease, Robert L. Levy, 711
Coronary disease, clinical-pathologic correlations and physiology, Herrman L.Blumgart, 693
Mechanism and management of circulatory failure, William Dock, 645
Graham, Evarts Ambrose, Primary cancer of the lung with special consideration of its etiology, 261
Greenacre, Phyllis, Appraisal of psychoanalysis for the practitioner, 295
Gutman, Alexander B., Some recent advances in the study of uric acid metabolism and gout, 144
Hobby, Art as a top-ranking medical, Robert Latou Dickinson, 378
Hotchkiss, Robert Sherman, Diagnosis of testicular deficiencies, 510
Howard, John Eager, Metabolism of calcium and phosphorus in bone, 24
Humanity of Sir Thomas Browne, Jeremiah S. Finch, 521
Inaugural address, William Barclay Parsons, 129
Influence of ACTH on the sensitizing and immunizing antibodies of inhalant allergy, Mary Hewitt Loveless, 495
Jaffe, Henry Lewis and Golden Selin, Tumors of bones and joints, 165
Joints, Tuberculosis of bones and, David M. Bosworth, 42

Tumors of bones and, Henry Lewis Jaffe and Golden Selin, 165
Laminectomies, Some observations based on a review of 900, Ernest Sachs, 370
Levy, Robert L., Clinical recognition of coronary heart disease, 711
Library Notes
General information on the Library, 124
Recent accessions, 192, 334, 531, 590, 638, 689, 743
Special information circulars about the Academy, Library, 184
Liver, cirrhosis of the, Portacaval shunt for portal hypertension with special reference to, Arthur H. Blakemore, 477
Locomotor disorders, some, ACTH and cortisone as therapeutic agents in arthritis and, Otto Steinbrocker et al, 560
Loewenstein, Rudolph M., Freud, man and scientist, 623
Loveless, Mary Hewitt, Influence of ACTH on the sensitizing and immunizing antibodies of inhalant allergy, 495
Lung, Primary cancer of the, with special consideration of its etiology, Evarts Ambrose Graham, 261
McEachern, Donald, Diseases and disorders of muscle function, 3
Mandel, Benjamin, Studies on the relationship between the Theiler group of viruses and the intestinal tract of the mouse, 583
Master, Arthur M., Isac Goldstein and Max Benjamin Walters, New and old definitions of normal blood pressure, clinical significance of the newly established limits, 452
Mechanism and management of circulatory failure, William Dock, 645
Metabolism of calcium and phosphorus in bone, John Eager Howard, 24
Microbiology, Section on
Chromatographic analysis of ragweed pollen extract, Ely Perlman, 586
Studies on the mechanism of the toxic action of Newcastle disease virus, Harold S. Ginsberg, 581
Studies on the relationship between the Theiler group of viruses and the intestinal tract of the mouse, Benjamin Mandel, 583
Modern treatment of syphilis, Evan Willing Thomas, 175
Muscle function, Diseases and disorders of, Donald McEachern, 3
New and old definitions of normal blood pressure, clinical significance of the newly established limits, Arthur M. Master, Isac Goldstein and Max Benjamin Walters, 452
New York Academy of Medicine, The, Structure and functions of, Howard Reid Craig, 597
Newcastle disease virus, Studies on the mechanism of the toxic action of, Harold S. Ginsberg, 581
Newer methods in the diagnosis of congenital cardiac anomalies, André Cournand, 277
Non-articular rheumatism, Richard Harold Freyberg, 245
Nursing shortage, Recommendations for action to relieve the, Subcommittee on Nursing of the Committee on Public Health Relations, 577
Oppenheim, Elliot. See Bruger, Maurice, joint author.
Pancreas, Carcinoma of the, and carcinoma of the ampulla of Vater, a re-evaluation, William Barclay Parsons, 339
Parkinsonism, Surgical treatment of, indications and results, Judah Ebin, 653
Parsons, William Barclay, Address of welcome, Twenty-fourth Graduate Fortnight, 643
Carcinoma of the pancreas and carcinoma of the ampulla of Vater, a re-evaluation, 339
Inaugural address, 129
Perlman, Ely, Chromatographic analysis of ragweed pollen extract, 586
Phosphorus, calcium and, in bone, Metabolism of, John Eager Howard, 24
Portacaval shunt for portal hypertension with special reference to cirrhosis of the liver, Arthur H. Blakemore, 477
Present status of antibiotic therapy in viral and rickettsial disease, Joseph E. Smadel, 221
status of antibiotics in bacterial infections, Maxwell Finland, 199
status of antibiotics in the treatment of protozoan diseases, Howard Benedict Shookhoff, 439
President, retiring, Address of the, Benja-

min P. Watson, 136
Prevention of burning accidents in England and America, Leonard Colebrook, 425
Primary cancer of the lung with special consideration of its etiology, Evarts A. Graham, 261
Protozoan diseases, Present status of antibiotics in the treatment of, Howard Benedict Shookhoff, 439
Psychoanalysis, Appraisal of, for the practitioner, Phyllis Greenacre, 295
Pyogenic arthritis, Arthur Steindler, 101
Ragweed pollen extract, Chromatographic analysis of, Ely Perlman, 586
Recommendations for action to relieve the nursing shortage, Subcommittee on Nursing of the Committee on Public Health Relations, 577
Regan, Charles, Rheumatoid arthritis, natural history of the disease and its management, 63
Report on convalescent care by the Committee on Public Health Relations of The New York Academy of Medicine, 325
Rheumatic diseases, Clinical effects of cortisone and ACTH on, Joseph Jay Bunim, 75
Rheumatism, Non-articular, Richard Harold Freyberg, 245
Rheumatoid arthritis, natural history of the disease and its management, Charles Regan, 63
Rhoads, Cornelius P., Ewing, the experimental method and the cancer problem, 606
Rickettsial disease, Present status of antibiotic therapy in viral and, Joseph E. Smadel, 221
Sachs, Ernest, Some observations based on a review of 900 laminectomies, 370
Selin, Golden. See Jaffe, Henry Lewis, joint author.
Sherman, William Bowen, Uses and abuses of antihistamine drugs, 309
Shookhoff, Howard Benedict, Present status of antibiotics in the treatment of protozoan diseases, 439
Silver, Murray. See Steinbrocker, Otto, joint author.
Simpson, E. Leonard, Adrenal hyperfunction and function, 723
Smadel, Joseph E., Present status of antibiotic therapy in viral and rickettsial disease, 221
Some observations based on a review of 900 laminectomies, Ernest Sachs, 370
recent advances in the study of uric acid metabolism and gout, Alexander B. Gutman, 144
Spitzer, Norman. See Steinbrocker, Otto, joint uthor.
Steele, J. Murray, Body water in man and its subdivisions, 679
Steinbrocker, Otto, Sidney Berkowitz, Solomon Carp, Mortimer Ehrlich, Mortimer Elkind, Murray Silver and Norman Spitzer, ACTH and cortisone as therapeutic agents in arthritis and some locomotor disorders, 560
Steindler, Arthur, Pyogenic arthritis, 101
Structure and functions of The New York Academy of Medicine, Howard Reid Craig, 597
Studies on the mechanism of the toxic action of Newcastle disease virus, Harold S. Ginsberg, 581
on the relationship between the Theiler group of viruses and the intestinal tract of the mouse, Benjamin Mandel, 583
Surgical treatment of Parkinsonism, indications and results, Judah Ebin, 653
Syphilis, Modern treatment of, Evan Willing Thomas, 175
Testicular deficiencies, Diagnosis of, Robert Sherman Hotchkiss, 510
Theiler group of viruses and the intestinal tract of the mouse, Studies on the relationship between the, Benjamin Mandel, 583
Thomas, Evan Willing, Modern treatment of syphilis, 175
Treatment and prognosis of convulsive disorders in children, Herman Yannet, 466
Tuberculosis, Biological and social aspects of, René J. Dubos, 351
of bones and joints, David M. Bosworth, 42
Tumors of bones and joints, Henry Lewis Jaffe and Golden Selin, 165
Uric acid metabolism and gout, Some recent advances in the study of, Alexander B. Gutman, 144
Uses and abuses of antihistamine drugs, William Bowen Sherman, 309
Viral and rickettsial disease, Present status of antibiotic therapy in, Joseph E. Smadel, 221
Walters, Max Benjamin. See Master, Arthur M., joint author.
Watson, Benjamin P., Address of the retiring President, 136
